Gloria was in a dire situation – she was forced to be off work for emergency surgery. Even when she wasn't working, rent and other expenses had to be paid. Gloria always donated to RUW, and now she was the one who needed help. She reached out to RUW and we immediately stepped up to help pay her rent from the ALICE Assistance Fund. With her rent covered, Gloria could heal and recover in her home. Now, she's working again and volunteering to help others who are in need.
